

THE
CONSERVATION FUND

FRESHWATER INSTITUTE

RECIRCULATING AQUACULTURE SYSTEMS

August 16–19, 2022

MIAMI, FLORIDA

COURSE DESCRIPTION:

This four-day course presented by The Conservation Fund's Freshwater Institute will cover the fundamentals of water recirculating systems for fish culture including mass balances to maintain water quality, unit process design, fish health, biosecurity and system operation. Course materials provided to participants include a binder of all presentations and the new edition of the book, Recirculating Aquaculture. The course includes a tour of the RAS facilities at Atlantic Sapphire.
